

Alternate Energy Sources

Farm Name: _____

Date: _____

Solar Energy:

- Solar hot water pre-heater
- Solar photovoltaics for electricity production
- Other solar applications:

Anaerobic Digester:

- digester used on farm Use of the methane produced

Wind Energy:

- Turbine and generator in use on farm: _____ kW, tower height _____ ft.
 - Unit interactive with utility
 - Not interactive with utility and energy is used for _____.
- Land leased to wind energy developer

Engine Powered Generator:

- Standby generator _____ kW. tractor powered engine powered
- generator is portable generator is permanently connected

Other Energy Sources: (please describe)
